Say: "SAFE Austin is participating in a national study on an online treatment program for survivors of sexual assault who use cannabis. Some of our patients have found it to be helpful and we hope it will improve treatment for survivors in the future. I can connect you with their research team to tell you more. The call would at most be 45 minutes, and you would be paid \$20-\$40 for it. Would you be willing to meet with a research assistant virtually to see if you qualify?"

- ☐ Patient is interested now (**preferred**, go to "Immediate Teleconsent" on next page).
- ☐ Patient is interested but not available now (go to "24-hour Consent," on next page).
- ☐ **Patient is unsure/wants to learn more before deciding:** "I can give them your contact information, and they will contact you in a couple of days. Is that okay?" (follow 24-hour Consent process, and let RA know they would like some time before they are contacted).
- ☐ **Patient declined to speak with RA at all:** "No problem. If you do change your mind or just become curious, here is a flyer and their contact information so you can contact them. Please let them know you were referred by NVIFN." (write reason and stop here ). ☐ Reason? _____
